One-Day Seminar for Young Planners

To Commemorate

WORLD CITIES DAY WORLD HABITAT DAY WORLD TOWN PLANNING DAY

Friday, 30th October, 2026

9:30 AM to 5:00 PM

Stein Auditorium, India Habitat Centre, New Delhi

CELEBRATING HABITAT, CITIES & TOWN PLANNING

Together, these three observances highlight the shared responsibility of creating inclusive, resilient, sustainable and well-planned places for all. World Habitat Day draws attention to the right to adequate and dignified living environments; World Cities Day celebrates the role of cities in shaping a sustainable future; and World Town Planning Day recognises the importance of planning in guiding balanced, equitable and resilient development.

On this occasion, the seminar brings together young planning professionals, students, emerging practitioners, academicians and experts to exchange ideas, explore contemporary urban planning challenges and discuss innovative approaches for shaping the cities and communities of tomorrow.
